

Little Mole Finds Hope Activity Pack

Continue the search for hope with these family-friendly activities from author Glenys Nellist.

Five Fun Facts About Moles

1. Moles eat spiders, ants and slugs, but their favorite food is worms. A mole can eat up to 50 pounds of worms in one year!
2. Moles are good at digging. They use their front paws like shovels and can dig 18 feet in one hour!
3. Moles have five long fingers and one little thumb on each paw.
4. Moles can't see very well because their eyes are tiny and covered with fur. But they have very good noses that they use to sniff out food.
5. A star-nosed mole has 16 tentacles on its nose that help keep its nose clean. Star-nosed moles are good at swimming too!

Are you good at rhyming? See if you can find the missing animals and the silly homes, then color the pictures in!

1. A vole and a  _____ lived together in a  _____.
